

We are looking for Mid PHP programmer!

novaturas

The leading tour operator in the Baltic states AB "Novaturas" invites PHP programmer to join the company.

Why you?

- Programming is your passion.
- You are interested in the latest technology and brand-new IT trends.
- You passionately hunt for "bugs" and fix them.
- You are happy to launch a new release.
- Your ambition – "clean code".
- You enjoy solving logical tasks.
- You are willing and able to work with "big data".
- You have mastered PHP, GIT and SQL.

Why we?

- We offer the widest portfolio of holiday destinations and serve the biggest numbers of travelers, but our true greatness lies within our ambition to create a life-time holiday experience for each of our traveler.
- During the pandemic we have survived one of the biggest crises and stepped out of it even stronger and wiser. We aim to change and grow together with the dynamic market and changing needs of our travelers'.
- Travelling is our passion. We know what we are doing and where we are heading. We also know that our success lies in a strong and ambitious team. What kind of team would you choose to be working with?

Responsibilities

- Development and maintenance of company's IT components.
- Development of new components or tools.
- Maintaining and improving integration interfaces.
- Participation in the development and expansion of the company' IT architecture.
- Teamwork according to Agile principles.

Requirements

- At least 2 years of programming experience using PHP and MySQL / NoSQL or another database.
- Experience of work with Symfony, Laravel or another framework.
- Experience with code verification system (GIT).
- English language skills.
- Ability to work in a team and independently.
- Responsibility and result orientation.
- Analytical thinking and possibility to see the big picture.
- Curiosity and willingness to learn.

Advantages

- Experience working with middleware.
- Knowledge of other technologies (e.g., .Net) and programming languages (e.g., C #)
- Ability to solve problematic tasks.

Company offers

- Attractive organizational culture and international environment.
- Interesting and intensive work in an innovative and large company.
- Ability to work with various technologies (PHP, Symfony, Vue.js, MySQL, MSSQL, Elasticsearch, etc.).
- Monthly salary gross (gross): from 2500 € to 3500 € and bonuses (final salary depends on experience and competences).
- Health insurance.
- Fabulous travelling possibilities.
- Career and self-realization opportunities.

We will be waiting for your CV via e-mail hr@novaturas.it with indicated subject „PHP programmer”.
We will contact only selected candidates.
